

REM This file transfers the EOF_Report_Log.xlsx to the sftp server

REM First create a logs folder within the SFTP folder to store logfiles

IF NOT EXIST ".\logs" MD ".\logs"

REM Run the WinSCP command line with the switch /script to use the BMOS.txt file

REM Also use the /log switch to output the log to the logs folder. /loglevel

REM determines the amount of detail stored in the log file

WinSCP.com /script=TransferScript1.txt /log=". \logs\EOF_%date:~-4,4%%date:~-10,2%%date:~-7,2%.log" /loglevel=2"

REM Select log files equal to or older than 5 days and delete

forfiles /p .\logs /m EOF_*.log /c "cmd /c Del @path " /d -5
